Plague Regulations in force in the City of Madras.

Fort St. George, September 24, 1940
(G.O. No. 4288, P.H.).

No. 731.

Whereas certain parts of the Province of Madras are visited by, and the City of Madras is threatened with an outbreak of the dangerous disease known as plague;

And whereas the ordinary provisions of the law for the time being in force in the City of Madras are insufficient to prevent the outbreak of such disease or the spread thereof;

Now, therefore, in exercise of the powers conferred by section 2 of the Epidemic Diseases Act, 1897 (III of 1897), and in supersession of all regulations previously issued on the subject, His Excellency the Governor of Madras is hereby pleased to prescribe the following temporary regulations to be observed in the said City for a further period of one year from the first day of October 1940.

1. In these regulations—

(1) 'City' means the City of Madras;

(2) 'Commissioner' means the Commissioner of the Corporation of Madras;

(3) 'Corporation' means the Corporation of Madras;

(4) 'Government' means the Government of Madras;

(5) 'Health Officer' means the Health Officer of the Corporation of Madras; and

(6) 'Infected area' means any area which is notified to be infected with plague under these regulations by the Government or subject to their control by the Commissioner.

2. The Government may, by notification in the *Fort St. George Gazette*, declare the City or any portion thereof in which one or more indigenous cases of plague have occurred, or in which the existence of plague among rats has been proved, to be infected with plague. In similar circumstances the Commissioner may notify by tom-tom and by publication in the local daily newspapers that the City or any portion thereof is infected with plague and shall inform the Government of such notification and the Government may cancel or modify such notification.

3. When the city or any portion thereof has been declared under the preceding regulation to be an infected area or when any area adjoining the City has under the regulations in force outside the City of Madras been declared to be infected, the Commissioner may close any existing market in the City and may appoint special places where markets may be held and may prescribe limits beyond which it shall not be lawful for persons bringing articles for sale from or to an infected area to pass.

4. In any infected area the Commissioner or the Health Officer with the previous sanction of the Commissioner may order the evacuation of infected premises and of premises in the neighbourhood of such premises or generally of any infected area:

Provided that, before issuing or sanctioning an order for compulsory evacuation, the Commissioner shall

(a) satisfy himself that compulsory evacuation is necessary to avert the further spread of the disease, or is in the interests of the affected population, taking account of climatic conditions;

(c) either provide adequate and suitable shelter within reasonable distance for the persons evicted and also necessary water-supply or satisfy himself that such shelter and water-supply will be provided by private agency; and

(c) provide necessary arrangements for watch and ward.

The Commissioner may require all persons who evacuate their premises voluntarily, or against whom an order of compulsory evacuation is passed under this regulation, to reside in such place and for such period as he may appoint.

Nothing contained in this regulation shall be deemed to apply to persons who produce a certificate from a Registered Medical Practitioner to the effect that they have been successfully inoculated against plague within a period of six months immediately preceding the notification of a locality as an infected area or who get themselves inoculated within twenty-four hours of the publication of such notification and produce a certificate to that effect from a Registered Medical Practitioner.

5. In any infected area the Commissioner may enter upon, occupy and use or may depute any person to enter upon, occupy and use without having recourse to the provisions of the Land Acquisition Act, 1894, any building or place which is required for, and is, in the opinion of the Health Officer suitable for any purposes connected with plague measures:

Provided that, if the building or place is occupied twenty-four hours' notice in writing shall be given to the occupier or shall be conspicuously affixed on such building or place. The owner or lessee of such building or place shall be entitled to a reasonable rent to be fixed by the Commissioner for the period during which the building or place is occupied or used and the Commissioner shall when any building ceases to be so occupied or used, cause it to be thoroughly cleansed and disinfected and, if the owner so desires, whitewashed inside and outside.

6. If the Commissioner is of opinion that the destruction of any hut or shed is necessary to prevent the spread of plague, he may take summary measures for the destruction of such hut or shed and of the materials of which it is constructed.

7. The Commissioner or any other person authorized by him in this behalf may direct that any building or place shall be inspected and that all rats found therein shall be destroyed; and he may to facilitate such destruction order the temporary removal of any article from such premises.

8. The Commissioner may direct that at any place in the City any consignment of grain or other produce or merchandise, being conveyed by rail, road or otherwise, shall be examined, and shall, if necessary, be unloaded and exposed to the sun in such manner and for such period as he may fix.

9. Every owner or occupier of a building and every medical practitioner shall at once report to the Health Officer any case of plague or any case of fever with glandular swellings or any unusual mortality among rats which may come to his notice.

10. The Commissioner or any person authorized by him in this behalf may prevent any articles suspected of coming from an infected area from being brought or taken into the City until such articles have been exposed to the direct rays of the sun for not less than three hours or disinfected to the satisfaction of such officer. Similar powers may be exercised by such officers regarding the exposure to the sun or the disinfection of any articles taken out of any infected area.

11. (1) The Commissioner or with his consent any other officer of the City Public Health Department not below the rank of a Sanitary Inspector may at any time by day or by night with such notice as may appear to him reasonable inspect any premises in which plague is reported or suspected to exist.

(2) If such officer is of opinion that the cleansing or disinfecting of any premises or part thereof, or of any article thereon which is likely to retain infection, will tend to prevent or check the spread of such infection he may, cleanse or disinfect such premises, part or article and may by notice require the occupier of such premises or any part thereof to vacate the same for such time as may be prescribed in such notice.

(3) The cost of cleansing or disinfecting any premises or part thereof or any article therein under sub-clause (2) shall be paid by the occupier of such premises provided that such cost may be met entirely by the Corporation if the occupier is from poverty unable to pay the said cost.

(4) Such officer may direct the destruction of bedding, clothing or other articles likely to retain infection.

12. (1) In the absence of a written contract to the contrary, every inspector, mistri, peon, watchman, labourer, scavenger or other menial servant employed to do duty in connexion with plague shall be entitled to one month's notice before discharge, or to one month's wages in lieu thereof, unless he is discharged for misconduct or was engaged for a specified term and is discharged at the end of such term.

(2) No such inspector, mistri, peon, watchman, labourer, scavenger or other menial servant shall, in the absence of a written contract authorizing him to do so, and without reasonable cause, resign his employment or absent himself from his duties or neglect or refuse to perform any of his duties without giving a month's notice.

13. The Commissioner may from time to time appoint persons as suppliers of labourers or other menial servants subject to such conditions as he deems fit and every such supplier shall be bound to faithfully carry out the duties assigned to him by the Commissioner and also to observe the conditions under which he has been appointed.

14. When in consequence of the exercise of the powers conferred by or under these regulations any property is damaged or destroyed, the Commissioner shall pay to the owner by way of compensation such sum as he may consider sufficient to cover the cost of repairing the damage or replacing the property destroyed. The Commissioner's decision fixing the amount of compensation to be paid shall be final. No compensation shall, however, be payable to cover the cost of replacing the articles destroyed under regulation 11 (4).

NOTE.—(1) The Plague Regulations being orders formally made and issued by Government under the Epidemic Diseases Act, no sanction is required as a condition precedent to prosecution for disobeying them (Judgment of the High Court in Criminal Appeal No. 501 of 1898).

(2) By Command Order No. 667 dated 10th November 1896, all ranks in the Madras Command have been directed to obey the Plague Regulations, and any infringement of them is punishable as a military offence. Military pensioners have been warned (Superintendent's Circular No. 11, dated 16th December 1899) that any disobedience or wilful neglect of the regulations or obstruction offered to any officer on plague duty will be treated as a breach of the good conduct required by Government as a condition of the continuation of their pensions and that any pensioners being guilty thereof will be liable to have his pension stopped forthwith and the same reduced or permanently withdrawn.

(1) *Article 2.*—For the definition of the term 'Inspector,' the following shall be substituted, namely:—

"The term 'Inspector' signifies the Inspector or Inspectress of European Schools'."

(2) *Article 55.*—In the second sub-paragraph, for the words "If a pupil leaves a school during a term," the words "If a pupil either joins or leaves a school during a term" shall be substituted.

(3) *Article 103.*—In the second sub-paragraph, the sentence "Selected candidates should ordinarily hold provisional appointments to which they will revert after training" shall be deleted.

(4) *Articles 144 to 150.*—Article 145 shall be deleted and for articles 144 and 145 to 150, the following shall be substituted, namely:—

"144. Grants-in-aid are given for the following purposes:—

(1) Purchasing, erecting, enlarging or improving school houses or buildings or boarding houses for pupils including residential quarters for the warden or other staff attached to the boarding house.

(2) Executing extensive alterations and repairs to buildings.

(3) Acquiring land for school or boarding house purposes.

NOTE.—In the case of an application for grant for repairs, the manager will be required to state that the necessity for such repairs has not arisen from the neglect of current repairs in previous years.

Conditions of grant.

146. (i) In the case of new buildings, extensions, improvements or alterations, the department must be convinced of their necessity and approve their character. Works commenced before obtaining the special permission of the department will not be eligible for grant.

In the case of the purchase of land or buildings, the department must either have been consulted before the purchase was made or be convinced that the land previously purchased is to be newly devoted to an educational purpose.

(ii) Grants will not ordinarily be given for a school building that fails to meet the requirements specified in Appendix 4.

(iii) Rooms in boarding houses for the construction of which grant is sought must satisfy the following conditions:—

> Dormitories must be large enough to allow 40 superficial feet and 400 cubic feet for each boarder under 12 years and 48 square feet and 480 cubic feet for boarders over 12 years. A space of at least 8 superficial feet and 80 cubic feet per head should be provided in every room used as a dining room or for any other dwelling purpose other than sleeping.

Building grant procedure.

147. (i) An application in the prescribed form (Appendix 28) shall be submitted to the department accompanied by such outline plans and specifications and information as will enable the department to judge of the suitability of the proposal from an educational point of view. The department shall return the correspondent whether it approves of the plans and estimates making, if necessary, alterations of the plans a condition of its so doing.

(ii) If the department's reply be favourable, the correspondent shall submit to it two copies of the detailed estimates and two copies of the detailed plans, specifications and abstract estimates (which may include architect's and engineer's fees) prepared by a recognized professional architect, a Member or Associate Member of the Institute of Civil Engineers, a gazetted officer of the Public Works Department present or retired, or a present or retired District Board Engineer who will be responsible for the structural stability of the building. No building operations shall commence until after the issue of favourable orders on the suitability of the design and the reasonableness of the estimate from a technical point of view. When the total estimate exceeds Rs. 10,000 the correspondent shall call for open tenders for the construction of the work. If after completion of the work, the correspondent applies for a grant, he shall be required to furnish a certificate in the prescribed form (Appendix 29) signed by the architect or the engineer in charge of the work to the effect that the building or buildings have been completed generally in accordance with the plans and specifications which were submitted and approved by the department and another certificate signed by the correspondent himself specifying the total amount actually spent on the building. No such application for grant will be considered if it is submitted more than one year after the completion of the building.

(iii) Where it is proved that private qualified professional advice is not available, the management shall prior to the commencement of the work thereon give fifteen days' notice in writing to the Executive Engineer in charge of the division wherein it is proposed to construct the building. During the progress of the work, access to site and every reasonable opportunity to inspect and examine materials and, take measurements, shall be afforded by the management to the officer of the Public Works Department.

(iv) A fee of one per cent of the total estimate shall be levied where actual supervision of construction by the Public Works Department is required.

In cases where a grant is applied for and proposed to be considered, the Inspector or the Director will call for a valuation of the work done from the local engineer of the Public Works Department.

NOTE.—(1) The Chief Engineer is authorized to permit persons other than those specified in Article 147 (ii) to design and supervise construction of works if such persons are considered competent by him.

(2) Any correspondent contemplating building operations for which he desires a grant from Government should apply to the Inspector for (1) a form of application for grant and (2) instructions for the preparation of plans and estimates.

Priority list of approved works.

147-A The Director (and the Inspector in the case of schemes not exceeding a total cost of Rs 1,000) will maintain a list of works approved by the department from a technical point of view. But the inclusion of a work in the list referred to implies no sort of liability on the part of the Government legal or moral for making a grant though the management will not be precluded thereby from applying for a grant after buildings are completed. The Director will each year recommend for the consideration of Government such schemes as he considers deserving of grant and will authorise payment of grant under the specific sanction of Government in each case out of the funds placed at his disposal for the purpose.

A scheme included in the list referred to above shall be expunged from it, if the work of construction or the purchase or acquisition of land or building is not completed within a period of three years from the date of its inclusion. Extension of this time-limit may be granted by the Director in special cases for valid reasons accepted by him.

Payment of grant.

148 (i) Grants when sanctioned may be paid in instalments as funds become available but except in cases where the governing body of the school has been exempted by the Director from the execution of a mortgage deed or a deed of acceptance no portion of the grant shall be paid before the title-deeds of the property have been examined by the Government Solicitor and found to be in order.

(ii) Before the grant is paid in full the governing body of the school shall be required to execute a mortgage deed of the property or a deed of acceptance in respect of the grant. The forms of the various deeds shall be as shown in Appendices 30 31, 31-A, 32 and 33.

The Director may, however, grant exemption from the execution of the deed in cases where the grant does not exceed Rs 10 000 if he considers that the execution of the deed is unnecessary.

The Government Solicitor will be permitted to charge for the examination of title-deeds and settlement of mortgages in connexion with building grants sanctioned for educational institutions fees not exceeding 1 per cent of the grant sanctioned subject however to a minimum of Rs 20 and the maximum of Rs 250 in each case.

One half of the Government Solicitor's fee, registration fees and other expenses connected with the execution of the deed will be reimbursed to the governing body in the shape of a supplementary grant from Provincial funds.

(iii) Grants sanctioned for any of the purposes mentioned in Article 144 (1) and (2) except the purchase of buildings shall be drawn on bills prepared in the form prescribed (Appendix 34) after countersignature by the Director or the Inspector as the case may be.

Grants sanctioned for the purchase of buildings or for the purpose mentioned in Article 144 (3) shall be drawn on bills prepared in the prescribed form (Appendix 35) after the countersignature by the Director or the Inspector as the case may be.

Amount of grant.

149 The grant payable shall not exceed in the case of buildings erected one half of the total cost of the work shown in the management's estimates as approved by the department and modified in the Public Works Department or certified in the valuation statement of the Executive Engineer, whichever is less and in the case of buildings and lands acquired, one half of the Collector's estimate of the value of the same or of the actual cost of acquisit on or purchase whichever is less.

Before making payment in full the Director will require the management to furnish the certificate referred to in Article 147 (2) showing the actual amount expended by them in completing the work, purchase or acquisition and if necessary he may call for the vouchers at any time in support of the expenditure incurred.

Claims of Government.

150. The governing body of any institution receiving a grant under this chapter shall refund the grant or a portion of it as specified below if the land or building in respect of which the grant was made ceases to be used for educational purposes approved by Government within a period of 30 years from the date of payment of the grant where the grant does not exceed Rs 50,000, 50 years from the date of payment of the grant where the grant exceeds Rs 50,000 but does not exceed one lakh and 99 years from the date of payment of the grant where the grant exceeds one lakh of rupees. The amount to be refunded shall bear the same proportion to the total grant as the unexpired portion of the period for which the building or the land is secured against diversion bears to the total period. If the governing body fails to make such refund the Government may recover the amount by such means as they deem fit.

(5) *Appendices* 30, 31 *and* 31-A.—For the word "Presidency" wherever it occurs in these appendices, the word "Province" shall be substituted.

(6) *Appendices* 17, 20, 23, 34, 35 *and* 44.—For these appendices, the following shall be substituted, namely —

(b) The increase as compared with 1938–39 was due to special repayments of loans taken for Capital purposes from the Revenue Reserve Funds (Rs. 8,53,745) and the Renewals and Replacement Fund (Rs. 4,71,784).

(c) Excludes an expenditure of Rs. 72,503 of March 1939 incorporated in the accounts for 1939–40 and also the net debit to suspense of Rs. 29,369 to end of March 1940 for the reasons explained in the footnote (a) above.

The increase in the receipts as compared with the year 1938–39 was due mainly to the larger income derived from (i) dues on imports chiefly due to increased imports of rice and food grains, (ii) dues on exports, (iii) quay dues, (iv) rents of properties, (v) overtime fees and (vi) transit dues on imports.

The increase in working expenses was mainly due to (i) the opening of the Board's own medical service in July 1939, (ii) increased expenditure under porterage of cargo, (iii) the debit to Revenue of Rs. 25,000 out of an expenditure of Rs. 55,000 on special repairs to the north revetment of the Harbour under the orders of the Government of India, (iv) increased charges under "Pensions and Contributions"—Contribution to Government for Police

8. *Financial position.*—The statement below shows the receipts and the expenditure of the Madras Port Trust during the last six years from 1934–35 to 1939–40 :—

Note.—The figures have been rounded to the nearest thousands.

(a) Includes a contribution of Rs. 8,98,625 from the Revenue Reserve Fund

(b) The increase of Rs. 16,00,000 as compared with the previous year is made up of Rs. 13,22,000 under "debt charges" and Rs. 2,77,000 under other charges. The increase under "debt charges" is due to the reasons explained in note (b) under paragraph 7 above.

9. The value of the block capital of the Trust stood at Rs. 4·755 crores on the 31st March 1940 as against Rs. 4·691 crores on the 31st March 1939. The increase is mainly due to the inclusion of the assets of the Port and Pilotage Funds under the orders of the Government of India. Taking into account, however, the cost of works written off the Capital account of the Trust up to the 31st March 1940, viz., Rs. ·047 crore the *net value* of the Capital assets on that date was Rs. 4·708 crores.

The outstanding loan liabilities at the end of the year under review amounted to 136·11 lakhs of rupees taking into account the amount at credit of the Sinking Fund created for the repayment of the sterling loan raised in England (including in that amount the accumulated interest on the investments which has been re-invested). In the reports of previous years interest on investments of the Sinking Fund was not taken into account in working out the outstanding liability.

10. The balances on the 31st March 1940 of the several funds created under Section 76-A of the Madras Port Trust Act, 1905, are compared below with the reserve limits fixed by the Government of India in their Communications Department's letter No. 13-P (4)/38, dated the 4th August 1938.

	Balance on 31st March 1940.	Reserve limit.
	Rs.	Rs.

(iii) Special Revenue Reserve Fund	15,77,840	20,00,000
(iv) Renewals and Replacement Fund	17,05,363	..

* A sum of Rs 6,98,625 was contributed during the year from this fund to the Board's Revenue Account.

MADRAS PORT TRUST—AUDITORS' CERTIFICATE ON THE ANNUAL ACCOUNTS FOR 1939–40

In accordance with the provisions of section 80 of the Madras Port Trust Act, 1905, we have to report as follows :—

We have examined the accounts and the balance sheet of the Madras Port Trust and verified the same with the books. We have also examined a portion of the deeds, vouchers and other documents relating thereto.

We have satisfied ourselves as to the correctness of the balances with the Imperial Bank of India, Madras, and the National Bank of India, Limited, London.

The correctness of the cash in hand and the cheques in course of collection have been verified by the officers of the Port Trust.

We have also satisfied ourselves as to the correctness of the suspense account balances by verifying them with the respective subsidiary accounts, bank pass books and the outstanding bills on hand.

We have also verified the securities representing the investments of the Trust with the bankers' safe custody receipts and certificates.

In our opinion, the balance sheet as at the 31st March 1940 is properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Port Trust according to the best of our information and explanations given to us and as shown by the books of the Trust.
